### LINKEDIN OUTREACH TEMPLATES

#### MESSAGE 1: Crisis Hook (For Cannabis CEOs)

Subject: \$100K AI Integration Disaster - Cannabis Industry

Hi [Name],

Just lost \$100K+ to a failed Veriff integration disaster at my cannabis business (TX DSHS License #690).

Spent 3 days debugging AI platform limitations that shouldn't exist - but discovered something valuable:

Most cannabis businesses are failing at AI integration because they're trying to use consumer tools for enterprise compliance needs.

I documented the exact solutions that saved my business. Now turning this nightmare into consulting revenue.

Are you dealing with age verification failures, payment processing issues, or AI integration headaches?

15-minute call to share what I learned?

Best,

Jesse Niesen

Cannabis AI Integration Specialist

TX DSHS CHP License #690

#### MESSAGE 2: Conservative Angle (For Traditional Cannabis Entrepreneurs)

Subject: Cannabis AI for Conservative Entrepreneurs

Hi [Name],

Most AI integration advice is written by tech bros who don't understand cannabis compliance or conservative business values.

I'm a Marine veteran running a 4-layer cannabis empire in Texas, preparing for April 7, 2025 legislative

testimony on hemp policy.

Just solved a \$100K AI integration crisis using conservative business principles:

- ✓ Compliance-first approach
- ✓ Proven ROI metrics
- ✓ Traditional business values
- ✓ Step-by-step systematic implementation

Conservative cannabis entrepreneurs deserve AI solutions that align with our values.

Would you be interested in a 15-minute conversation about responsible AI integration for traditional cannabis businesses?

Semper Fi,  
Jesse Niesen  
Marine Veteran & Cannabis Industry Leader

### MESSAGE 3: Competitive Urgency (For Mid-Size Operations)

Subject: Cannabis Competitors Using AI - Are You Behind?

Hi [Name],

Quick question: Are your cannabis competitors using AI while you're still doing everything manually?

I just spent 72 hours solving a massive AI integration failure at my cannabis business - and discovered most cannabis entrepreneurs are making the same mistakes:

- ✗ Using consumer AI tools for business operations
- ✗ Ignoring compliance requirements in AI implementation
- ✗ Afraid of AI complexity so doing nothing
- ✗ Losing revenue to tech-savvy competitors

The cannabis entrepreneurs who master AI integration in 2025 will dominate their markets.

I'm launching emergency AI consulting specifically for cannabis businesses.

Quick call to discuss where you are with AI integration?

Best,  
Jesse Niesen  
Cannabis AI Integration Specialist

## FACEBOOK GROUP POSTS

### POST 1: Cannabis Entrepreneurs Network

#### CANNABIS AI INTEGRATION DISASTER - Lessons Learned

Just lost \$100K+ monthly revenue to a failed Veriff integration at my cannabis business (TX DSHS License #690).

3 days of debugging revealed why most cannabis businesses fail at AI integration:

- 1 Consumer AI tools ≠ Cannabis business compliance needs
- 2 Age verification systems not designed for hemp/cannabis
- 3 Conservative entrepreneurs scared of AI complexity
- 4 No cannabis-specific AI integration expertise available

PLOT TWIST: Turned this nightmare into a business opportunity.

Now launching cannabis AI integration consulting because this industry needs specialists who understand BOTH technology AND compliance.

Cannabis entrepreneurs: What AI integration challenges are you facing?

Drop a comment - might turn your problems into solutions! 📌

### POST 2: Hemp Business Owners Group

#### CONSERVATIVE HEMP ENTREPRENEURS: AI Doesn't Have to Be Scary

Marine veteran here, running hemp business in Texas with DSHS License #690.

Most AI advice is from Silicon Valley tech bros who don't understand:

- ✓ Conservative business values
- ✓ Hemp compliance requirements
- ✓ Traditional customer demographics
- ✓ Risk management mindset

Just solved a massive AI integration crisis using conservative principles:

- Compliance-first approach

- Proven ROI before implementation
- Step-by-step systematic rollout
- Traditional business risk management

Conservative hemp entrepreneurs deserve AI solutions that align with our values.

Who else wants AI integration that respects traditional business principles?

## VIDEO SCRIPT: "The \$100K Cannabis AI Disaster"

### Hook (0-15 seconds)

"I just lost over \$100,000 in monthly revenue because of an AI integration failure at my cannabis business. But here's the crazy part - it led to a discovery that could change how the entire cannabis industry approaches AI."

### Story (15-90 seconds)

"I'm Jesse Niesen, Marine veteran, running a cannabis business empire in Texas with state license #690. Three days ago, our age verification system crashed. Veriff integration failed, 80+ customers couldn't complete purchases.

While debugging, I discovered something shocking: There are NO AI integration specialists who understand cannabis compliance. Everyone's trying to force consumer tools into business operations.

The cannabis industry is flying blind with AI integration."

### Value Proposition (90-120 seconds)

"So I'm launching something new: Cannabis AI Integration Consulting. For entrepreneurs who need AI solutions that actually understand compliance, conservative business values, and real cannabis industry challenges.

Not Silicon Valley solutions. Real business solutions."

### Call to Action (120-135 seconds)

"If you're a cannabis entrepreneur struggling with AI integration, or if you're losing revenue to tech-savvy competitors, let's talk. Link in comments for a 15-minute cannabis AI crisis assessment.

Because cannabis entrepreneurs deserve AI solutions that actually work."

---

## EMAIL CAMPAIGN SEQUENCE

### EMAIL 1: The Crisis Story

Subject: How I Lost \$100K to AI Integration Failure (Cannabis Industry)
