

Sysnet App

Sysnet's PCI 1-2-3 solution provides business owners and franchisees with the leading tools and support necessary to analyze, remediate and validate PCI compliance. Sysnet delivers innovative risk, security and compliance solutions to businesses of all types so that they can reduce risk and maintain a competitive advantage in an increasingly threatening business environment.

PCI 1-2-3 offers a simplified SAQ experience, integrated ASV scanning and access to best-of-breed security solutions. Customers also receive direct access to one-on-one consultations and unlimited support from knowledgeable representatives, highly trained in security and compliance.

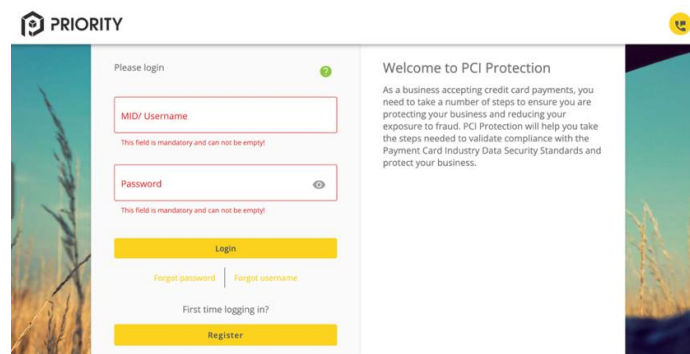

Activating Sysnet

PCI Compliance can easily be updated through MX™ Merchant by installing the Sysnet App.

- Login to MX Merchant at <https://mxmerchant.com/mx6/login>.
- Click Apps in the left-hand menu.
- To install the Sysnet App click Apps on the left menu then click the green Activate button found on the Sysnet tile.

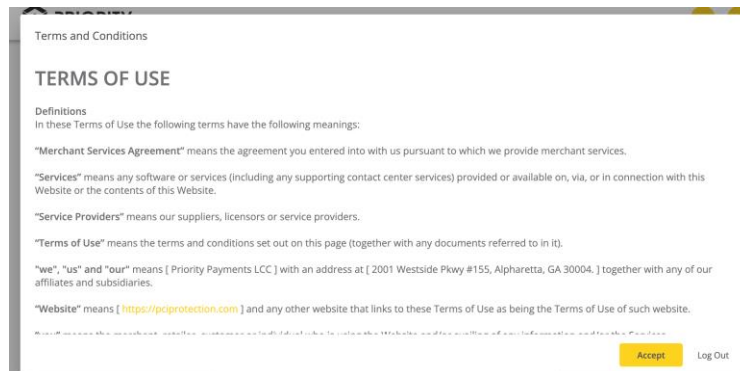

- Once you click the Activate button a pop-up will appear.
- Click Register and you will be redirected to the Sysnet landing page to register your MID.

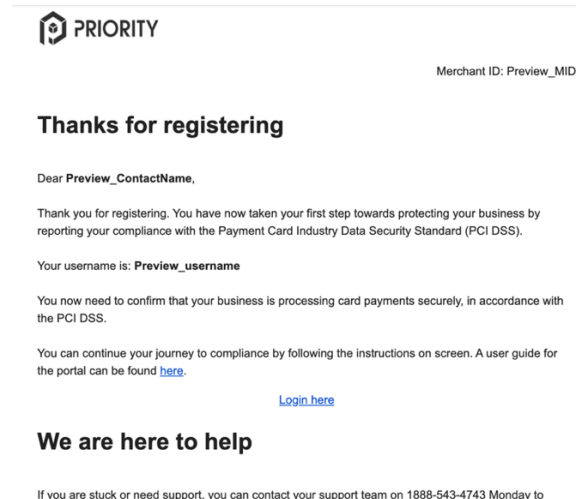

- This page will prompt you for your MID and a security code. You can locate your MID within MX Merchant by clicking on the silhouette icon on the top-right of the screen. It will display right below the DBA and address. The security code will display on the right side of the PCI Protection registration page. Click Register once this page is completed.

- You will receive another pop-up that will ask you to create a Username and Password and provide contact information. They are specific to the Sysnet portal. Once completed Click the Next button.

- Once Next is selected Sysnet's Terms of Use will be displayed for your review and acceptance. Click the Accept button once you have reviewed and accept these terms.

- You will receive an email thanking you for registering confirming your username.

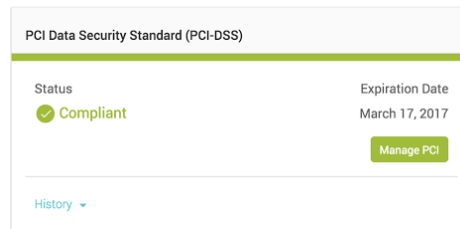

Accessing Sysnet

Once Sysnet is activated it can be accessed in multiple areas of MX™ Merchant.

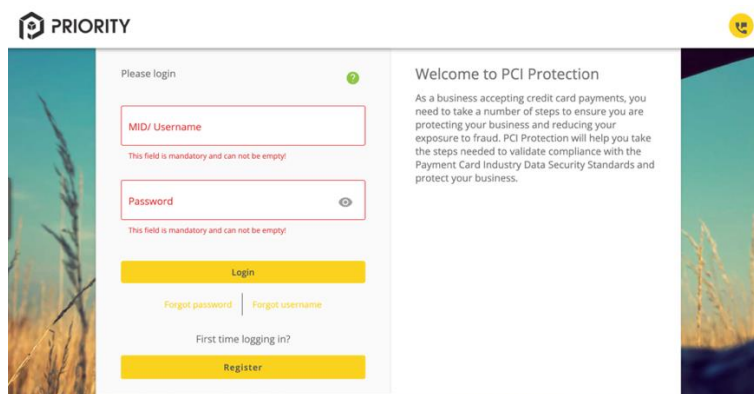

- The first of which is to click Apps in the left-hand menu; hover your mouse over the Sysnet logo within the app store and click the SIGN IN button shown in the image.

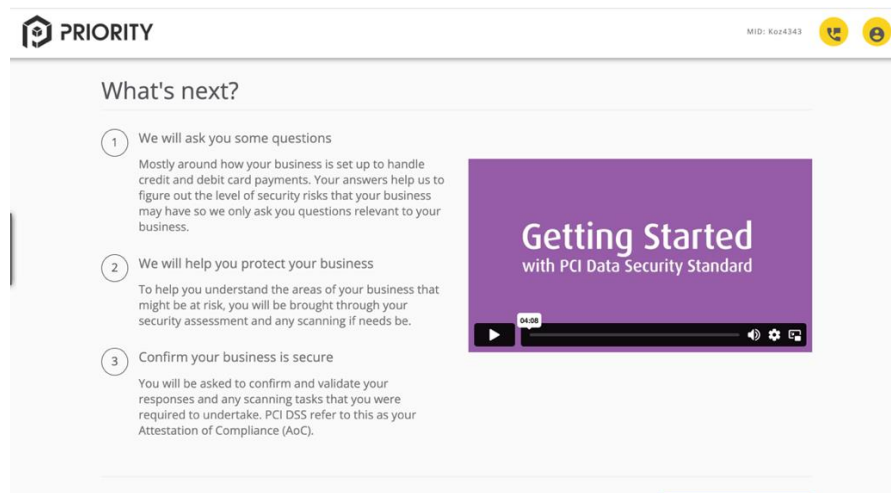

- The second place that Sysnet can be accessed from MX™ Merchant is by clicking Settings in the left-hand menu, select the Compliance tile, and click the green Manage PCI button.

- After clicking the Sign In or Manage PCI button a new tab will open with the Sysnet page where you will need to enter the Username and Password you created in the Activating Sysnet steps.

- Once you enter the Sysnet Username and Password click Login.
- Now you are ready to get started. You can watch the Getting Started video for an explanation of what PCI Compliance is or jump right in to the questionnaire by clicking the Start Business Profile button. The questionnaire will automatically determine what SAQ type is needed and will walk you through the SAQ process.

- If you need support, you can contact your support team on 1888-543-4743 Monday to Friday 8.30am to 8.00pm ET.
